That stove factory project had genuine merit in it and ought to have succeeded, but, owing to lack of harmony and lack of interest on the part of our people, it seems to have received a quietus. The Herald hopes for better lack next time, but is moved to say that too many things are passing us and are being pucked up by our neighboring cities. We are frittering away our opportunities. The road to prosperity for our city lies through an anergetic working in harmony toward the desired and—not in standing back or pulling at cross-purposss. Let us get to Giles Warren, Kyle Bohon and Charles pulling at cross-purposss. Let us get to work.—Lincoln Herata.
